

Thomas Lee

Esports Coach & Manager / Project Scheduler / Design Engineer

PERSONAL SUMMARY

An enthusiastic Aerospace Engineering Graduate from the University of Surrey whom is seeking an engaging and ambitious career. My greatest strengths are being able to learn quickly whilst competently applying new knowledge as well as being a confident, humble person. For the past two years I have been operating as an Esports Coach and Manager whereby my success is predicated on my ability to motivate individuals, establish cohesive teams, develop strategic analysis for “forecasting” and to create flexible multi-faceted plans. It is, by large, an unsupervised role where I am solely responsible for my own decisions, results and tact.

EMPLOYMENT

G2 Esports - Berlin

Esports Coach & Team Manager *Aug 2018 – Present*

Responsible managing logistics for a 5-7man esports team; whilst simultaneous coaching the team to ensure maximum performance within the competitive esports scene of Rainbow Six Siege.

Duties:

- Scheduling weekly training routines and tactically arranging practice partners to maximise results and limit exposure.
- Conducting video analysis internally and externally, resulting in information packets presented to the team.
- Analysing the Micro/Macro META of specific teams and of the wider regions resulting with an assessment of the best course of action to respond to ensure maximum results in the short and long term.
- Dutifully strengthening interpersonal relationships within the team and monitoring the players physiological condition.
- Establishing discipline to ensure each player maintains a healthy lifestyle, outside of the workplace.
- Talent scouting, recruiting and integrating new players to the team and ensuring they have the drive and tools to win.
- Generating automated coaching tools which players undertake in their own time.
- Reporting and scheduling between the team and the organisation for tournaments, media and promotional events.
- Budget forecasting for the costs of events and managing the team at the events.

PENTA Sports - Berlin

Esports Coach & Team Manager *Sept 2017 – Aug 2018*

Responsible managing logistics for a 5-7man esports team; whilst simultaneous coaching the team to ensure maximum performance within the competitive esports scene of Rainbow Six Siege.

Ministry of Defence - Filton

Project Scheduler *July 2017 – March 2018*

Responsible for scheduling defence projects of high complexity ranging from durations of 3 months to 20+ years. Additionally; leasing internally between Financial, Engineering and Commercial internal elements to ensure delivery.

Duties:

- Utilising the P6 PPM Suite to generate and update existing integrated project schedules.
- Liaising to extract information from Civil and Military elements to ensure generation and management is accurate.
- Incorporating risk and financial forecasts in highly complex, fluid projects.

WCM Europe Ltd – Basildon/Coventry

Design/Project Engineer *April 2015 – Dec, 2015*

Responsible for the management / design of prototypes and production products, for major automotive OEM's. Secondary contact, both internally and externally, for technical advice and information within the company.

Duties:

- Communicating with customers and suppliers to resolve design issues.
- Develop and maintain project plans for production and design tasks.
- Visiting clients to offer technical expertise and solutions.
- Using computer-aided design to create detailed designs and specifications.

AREAS OF EXPERTISE

Esport Coaching & Analysis
3D Modelling
Aerodynamics
Design for Manufacture
Project Management
Project Engineering
Rapid Prototyping
Stress Analysis
Technical Support

PROFESSIONAL ACREDITATIONS

IMechE, Associate
RAeS, Associate

SOFTWARE

Primavera P6 PPM Suite,
Adobe Premier Pro,
CATIA V5, SolidEdge
ANSYS CFD, OpenFOAM
MATLAB, GNU Octave
Bash, HTML, learning Java
Logic systems & pseudo-code

AWARDS

Duke of Edinburgh
Instron Prize
Silverwood Prize

NOTABLE ESPORTS ACHEIVEMENTS

- R6 Paris Majors
1st - \$350,000 PP
- DreamHack Valencia
3rd – \$25,000 PP
- R6 Atlantic City
2nd - \$167,000 PP
- R6 Montreal 6Inv
1st - \$500,000 PP
- R6 Sao Paulo
3rd - \$167,000 PP
- R6 Cologne
1st - \$167,000 PP
- R6 Katowice
1st - \$167,000 PP

CORE SKILLS

- Adaptable to new situations, whilst maintaining high standards of work.
- Ability to multi-task in a demanding, high-pressure engineering environment.
- Coachable individual that can operate independently or as part of a team.
- Capable of resolving complex technical issues and coming up with fast efficient solutions.
- Can independently assess and create strategies to progress within highly fluid and competitive environments.
- Exceptional customer service skills and demeanour.
- Proficient leader; either designated or improvised.

ACADEMIC

MEng, 2:1 (Hons)

Aerospace Engineering

Dissertation: Steady and Unsteady Aerofoil Aerodynamics using OpenFOAM CFD.

Group Projects:

- Future ambulance system.
- Dual role aircraft design.
- Rolling moment of a model aircraft in a wind tunnel.

University of Surrey 2010 – 2015 (Module list can be provided on request)

A Levels:

Palmers College

Maths (A) Physics (A) Chemistry (B) Electronics (A-100%)

2008 – 2010

INTERESTS

- Esports
- Guitar
- Skiing/Snowboarding
- Wargaming (Strategy Theory)
- Wakeboarding

REFERENCES

“Tom is extremely quick in assimilating new information and could always be relied on to carry out whatever was requested of him quickly and efficiently, always meeting the deadlines that he was given. He is an excellent team player who would step in to fill gaps when other members of the team were out, including picking up tasks that would normally be carried out by more experienced/senior members of the team.” – *Vicky Stanley*
